SINGAPORE – 15 April 2014 – Mainboard-listed integrated ornamental fish service provider **Qian Hu Corporation Limited** (“Qian Hu”) today announced that its 1Q14 net profit attributable to shareholders surged 85.5% to \$115,000, boosted by the continued strong recovery in Dragon Fish sales and profit margin.

In the three months ended 31 March 2014, the Group posted revenue of \$20.7 million, which grew 2.4% year-on-year on the back of higher sales of Dragon Fish in its Northeast Asian markets, particularly China. Improved contributions from its subsidiaries in Indonesia, Malaysia and Thailand also helped to perk its Ornamental Fish revenue up 8.2% to \$9.1 million.

Its Accessories segment remained consistent in the current quarter, at \$8.9 million, due to a different sales mix, coupled with the Group's focus on selling its proprietary brand of higher-margin Accessories products.

Plastics business dipped 6% to \$2.7 million as a result of a revision in selling prices implemented in January 2014. However, Qian Hu expects demand to recover in subsequent quarters.

Operating Profit

\$'000	1Q2014	1Q2013	Change (%)
Ornamental Fish	304	121	151.2
Accessories	438	418	4.8
Plastics	133	232	(42.7)
Unallocated Corporate Expenses	(543)	(612)	11.3
	332	159	108.8

Period ended 31 March

Ornamental Fish

Operating profit from Ornamental Fish surged by 151.2% to \$304,000, boosted by the stabilisation of Dragon Fish prices that yielded strong margins. The Group expects to see a steady growth in its Ornamental Fish revenue and profitability in the coming quarters.

Accessories

Despite stable revenue contributions, the Group's Accessories segment posted an improvement of 4.8% in operating profit to \$438,000 as a result of its focus on capturing more market share through its proprietary brand of innovative products which yielded better margins, and a different sales mix.

Plastics

The Group's Plastics segment was impacted by higher raw material prices, a gradual increase in operational costs, and lower revenue contribution as a result of the selling price revision in January 2014. It posted a 42.7% decline in operating profit to \$133,000.

Per Share Data

Based on the Group's latest results, Qian Hu achieved earnings per share on a fully diluted basis of 0.03 Singapore cents in the first quarter, and net asset value per share of 11.24 Singapore cents as at 31 March 2014.

Kenny Yap, Qian Hu's Executive Chairman and Managing Director, said: "While we are pleased with the continued strong showing of our Ornamental Fish business, we are even more excited about the transformation of Qian Hu into a next-generation, high-technology operation which will bring about new growth dynamics in both our Ornamental Fish and Accessories businesses.

Already, we have an exciting pipeline of innovative, proprietary Accessories and Fish Nutrition products. We believe that these initiatives, together with our leading-edge Dragon Fish research, will enable Qian Hu to be more resilient and sustainable in the long term. Barring any unforeseen circumstances, the Group will continue to grow its revenue and be profitable in FY2014."
